

Agency Presentation

Thank you for your interest in our agency. As one of the most powerful communications agencies in the country, we are already a valuable partner for many national and international companies in all areas of marketing communications. But of course we are always interested in new, exciting challenges.

We probably think and act a little different, but that's only to the benefit of our customers. REICHLUNDPARTNER is much more than an advertising agency. We think holistically, work proactively and love to be an inspiring source of inspiration and a reliable partner when it comes to brand positioning, creative strategies, corporate design, classic and digital advertising campaigns, employer branding, corporate social responsibility projects, holistic media strategies, design and programming of websites, web platforms, e-commerce, social media, public relations, event marketing or the development of innovative business models. Our team of 170 creative minds has many years of experience in both national and international b2c and b2b communications.

We would be pleased to present REICHLUNDPARTNER to you in more detail. If you have any questions, please do not hesitate to contact me personally.

Rainer Reichl

PS: By the way, we are big enough to solve complex tasks and small enough to provide individual support to our clients. ☺

Our philosophy

"We strengthen the competitiveness
of our customers in the long term by
inspiration, innovation and creativity."

We support businesses, institutions, organizations and individuals through target-oriented, creative and networked communication, in particular through strategy, creation and project management. With a single focus - to strengthen competitiveness and achieve sustainable success.

"We offer our employees
the best jobs in our industry."

Our agency locations are in the best city center locations and are perfectly designed. The individual is the core of our philosophy. We therefore encourage our highly specialized "creative and knowledge teams" to develop their talents to the best of their ability and to grow personally and professionally, thus achieving a high level of personal responsibility, independence, self-confidence, competence, performance, empathy, economic productivity, team orientation, identification and personal fulfillment. In doing so, we strive for sustainable and long-term collaboration with our "creative and knowledge teams". Agency locations: Vienna, Linz, Graz.

"With our business partners,
we create real partnerships."

We offer our business partners (media, creative partners, suppliers, consultants,...) a team-oriented, cooperative, fair, productive and sustainable partnership in order to achieve the best possible result for our clients.

"We support science and society."

To this end, we have established the charitable "Stones for Life" Foundation, which supports national and international projects in the field of cancer research and for the benefit of children in need.
